- **100** hi-resolution C7 Corvette images
- Constant movement slide and zoom effects
- Supports multi-monitor environment (up to 5)
- **Optional 100+** transitional effects
- **Optional music playlist**

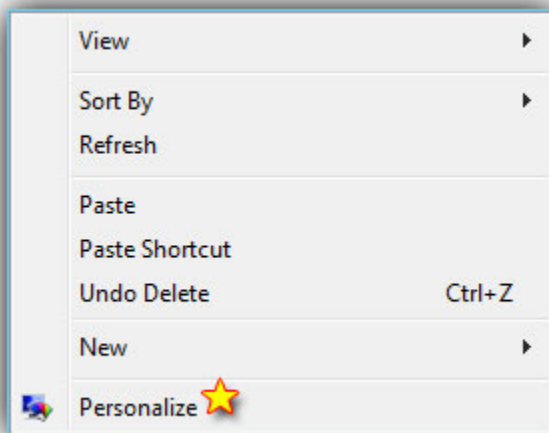

Installation of Screensaver

- Extract the contents of the screensaver **ZIP** file
- When installing the “**C7 Corvette Screensaver.exe**” file, run the file by double clicking on the file name in the Explorer or by selecting “Run” from the Taskbar’s Start menu.
- The recommended install directory is: **C:\Windows**

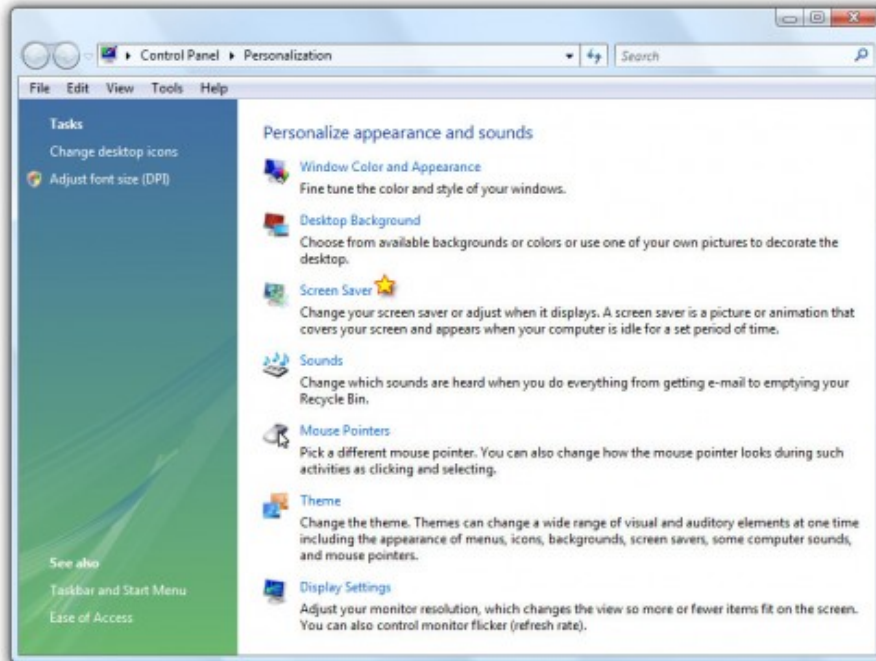

Uninstalling the Screensaver

- Select: **Start** —> **Programs** -> **C7 Corvette Screensaver** —> **Uninstall**
- Optionally, you can remove the screensaver from the **Control Panel**

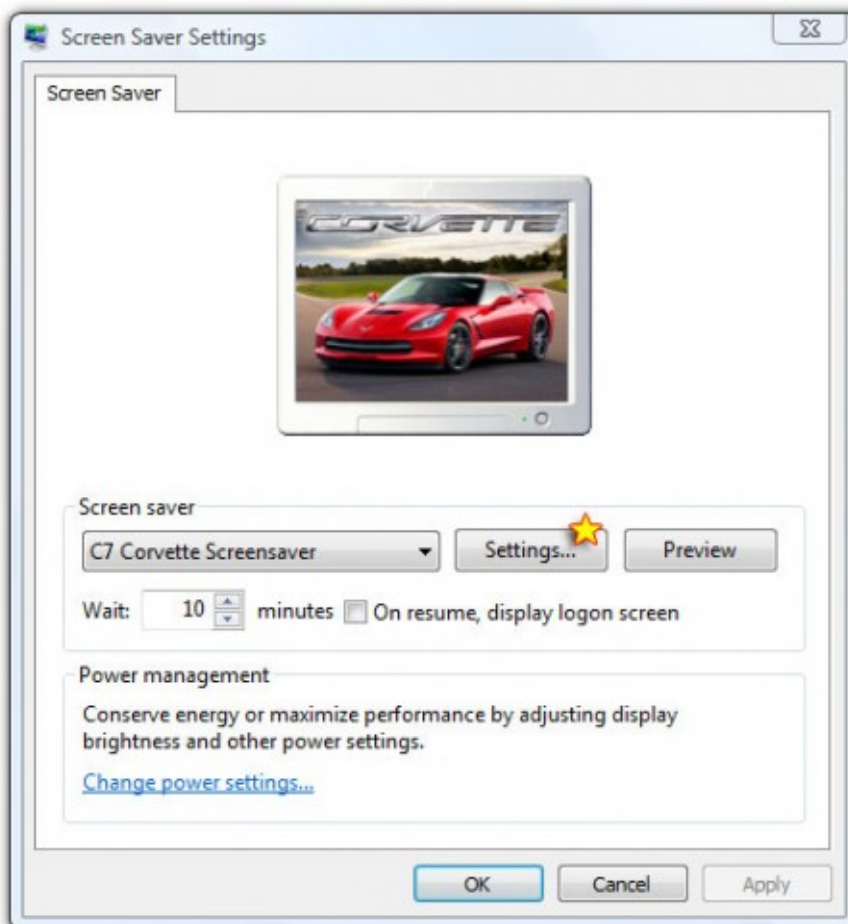

Changing Screensaver Properties

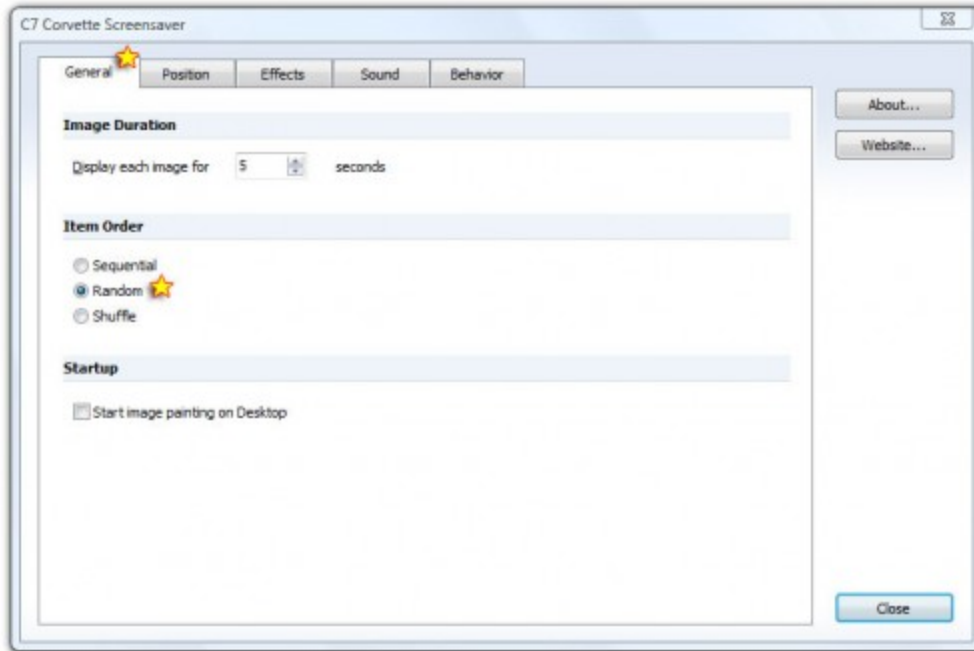

Right click on your **DESKTOP** and select **PERSONALIZE**.

Choose the **SCREEN SAVER**.

Click on the **SETTINGS** button.

The viewing sequence is set to **RANDOMIZE** a new picture every 5 seconds. The images will appear in an undetermined order. Some images may repeat before all are displayed.

If you decide to select **SEQUENTIAL**, this will show all the images in a predefined order.

The default image size is **FILL SCREEN**.

This yields full screen viewing for all of the images in 8:5 ratio monitors (including 16:10 widescreen HD). For older monitors (4:3 aspect ratio) and some HD monitors (16:9 ratio), cropping may occur. To prevent cropping, we suggest **FIT screen**.
