

Setting up a Mac Screensaver

1. Download the Screensaver Zip File you'd like to install.
2. It should **unzip** itself after the download
(if not, unzip it manually)
3. **Move** the **folder** to an appropriate place
(ie: "Pictures Folder" or Desktop)
4. Go to **System Preferences** --> **Desktop & Screen Saver**
5. Click the "+" button and "**Add Folder**"
6. Select the photo folder
7. Adjust settings to personal preference
(Display Style, Options, Start screen saver slider)
