EXPERIENCE CORVETTE

With remarkable exhibits on Corvette's history, virtual thrills in the racing simulator, elevated dining at the Stingray Grill, and shopping in the Corvette Store, the Museum offers an experience the whole family can enjoy. When paired with the high-speed excitement of driving on track and karting at the NCM Motorsports Park, or touring the Bowling Green Assembly Plant*, our Corvette Campus truly has something for everyone.

ABOUT THE MUSEUM

At the National Corvette Museum, you'll immerse yourself in the legacy of America's Sports Car, the Chevrolet Corvette. Discover a rich history spanning over seven decades, showcasing the evolution of design, engineering, and the Corvette spirit. The Museum celebrates innovation, speed, and the enduring appeal of the Corvette, offering a remarkable journey for enthusiasts and families alike—igniting a passion in every guest.

OUR MISSION

The mission of the National Corvette Museum is to educate worldwide audiences on the evolution of the Corvette—America's Sports Car—through collection, preservation, and celebration of its legacy.

OUR HISTORY

The National Corvette Museum began as an idea among members of the National Corvette Restorers' Society (NCRS). In the mid-1980s, the NCRS sought ways to ensure the preservation of literature and technical documents essential for Corvette restorers. To meet this need, the club's Board of Directors authorized a committee to explore creating a nonprofit foundation that would establish a Corvette technical library. Many committee members were intrigued by the possibility that the library could also become a museum. As planning for the foundation continued, the NCRS forged partnerships with other museum supporters in Bowling Green, including those from the Corvette assembly plant and the Chamber of Commerce. At a meeting in January 1990, the NCRS committee approved Bowling Green as the location of the future museum. The National Corvette Museum officially opened its doors in August 1994 and has been welcoming Corvette fans and car enthusiasts ever since.
